7. Information comparability declaration in the Financial statements

The Company has adopted Circular No. 200/2014/TT-BTC and 202/2014/TT-BTC dated December 22, 2014 issued by the Ministry of Finance, which replaces Decision No. 15/2006/QD-BTC dated March 20, 2006 and Circular No. 244/2009/TT-BTC dated December 31, 2009 issued by the Ministry of Finance, for the preparation and presentation of financial statements.

II. Accounting period, currency used in accounting

- 1. Fiscal year: from January 01 to December 31
- 2. Functional currency Vietnamese dong (VND)

III. Applicable accounting standards and regulations

1. Applicable accounting standards

The Company applies the Vietnamese accounting system as prescribed by Circulars 200/2014/TT-BTC and 202/2014/TT-BTC dated December 22, 2014, as well as other circulars guiding the implementation of accounting standards issued by the Ministry of Finance in preparing and presenting financial statements.

2. Compliance Statement with Accounting Standards and regulations

The Board of Directors confirms that the Company has complied with the requirements of Vietnamese accounting system as prescribed by Circulars 200/2014/TT-BTC and 202/2014/TT-BTC dated December 22, 2014, as well as other circulars issued by the Ministry of Finance guiding the implementation of accounting standards in the preparation and presentation of the financial statements.

Basis of preperation of Consolidated Financial Statements

The consolidated financial statements are prepared under the historical cost principle.

The Company's consolidated financial statements are prepared on the basis of the consolidation of the separate financial statements of the Company and the separate financial statements of the subsidiaries controlled by the Company, for the fiscal year ended December 31st of each year.

In the Company's consolidated financial statements, intra-group transactions and balances related to assets, equity and receivables, payables have been fully eliminated.

IV. Applicable accounting policies

1. Principles for converting financial statements from foreign currency to Vietnamese Dong

The application of exchange rates for the conversion of financial statements shall comply with eh guidance provided in the Enterprise Accounting Regime, as stipulated in Circular No 200/2014/TT-BTC dated December 22, 2014

- 2. Types of exchange rates used in accounting: Not applicable
- 3. Principle for determining the effective interest rate used for discounting cash flows: Not applicable

4. Principles for recognizing the cash and cash equivalents:

Cash includes cash on hand, demand deposits, time deposits, money in transit, and monetary gold. Cash equivalents are current investments with original maturities of three months or less that are readily convertible to known amounts of cash and bear insignificant risk of changes in value.

5. Principles for recognizing the financial investments

For Held To Maturity: time deposits of less than 12 months and loans.

6. Accounting principle for accounts receivable:

Accounts receivable are presented at its carrying amount less allowance for doubtful accounts.

Classification of receivables into trade receivables, intercompany receivables, and other receivables is based on the following principles:

Trade receivables reflect commercial receivables arising from purchase-sale transactions between the Company and buyers who are independent entities of the Company, including receivables from export sales entrusted to other entities.

8

- Intercompany receivables represent amounts due from subsidiaries that are not separate legal entities.
- Other receivables reflect non-trade receivables that are not related to sales transactions.

An allowance for doubtful accounts is established for each individual uncollectible receivable based on the age of the overdue balance or the expected loss. Specifically:

- For overdue receivables, the allowance is provided at a rate of:
 - 30% of the balance for receivables overdue for more than 6 months but less than 1 year.
 - 50% of the balance for receivables overdue for more than 1 Years but less than 2 years.
 - 70% of the balance for receivables overdue for more than 2 Years but less than 3 years.
 - 100% of the balance for receivables overdue for more than 3 years.

For receivables that are not overdue but are unlikely to be recovered: Based on the expected loss level, reserve is established.

7. Principles for recognition of inventories

Inventories are measured at its cost. If the net realizable value is lower than the cost, the inventories shall be measured - at the net realizable value. The cost of inventories shall comprise the purchase price, costs of conversion, and other costs incurred in bringing the inventories to their present location and condition.

- Inventories are valued using the weighted average cost method.
- Inventories are accounted for using the periodic inventory method.

An allowance for inventory devaluation is established at the end of the year for the difference between the cost of inventories and their net realizable value The Company does not recognize any allowance for inventory devaluation.

8. Principles for recognition and depreciation of fixed assets, Finance Leased fixed assets, and Investment Property

a. Principles for recognition and depreciation of tangible and intangible fixed assets

Fixed assets are stated at cost less accumulated depreciation. The cost of fixed assets includes all costs incurred by the Company to acquire the fixed assets up to the time the assets are ready for use. Expenses incurred after initial - recognition are only recorded as an increase in the cost of fixed assets if it is certain that these costs will increase

future economic benefits from the use of the assets. Expenses incurred that do not satisfy the above conditions are recorded as production and business expenses in the period.

Depreciation is calculated using the straight-line method. The depreciation rate for tangible and intangible fixed assets - is applied according to Circular 45/2013/TT-BTC dated April 25, 2013 issued by the Ministry of Finance. The depreciation period is calculated as follows:

+ Machinery and equipment

08 - 10 Years

+ Means of transport

07 - 10 Years

b. Recognition and depreciation of finance lease assets

Finance leased fixed assets: The original cost of fixed assets under finance leases is recognized at the fair value of the - leased asset or the present value of minimum lease payments (in cases where the fair value exceeds the present value of minimum lease payments), plus any directly incurred initial costs related to the finance lease.

c. Principles for Recognition and Depreciation of Investment Properties

Investment properties are recognized at cost. During the holding period for capital appreciation or operating lease purposes, investment properties are recognized at their original cost, accumulated depreciation, and the remaining

- Investment properties are depreciated in the same manner as the company's fixed assets.

9. Accounting principles for business cooperation contracts:

a. For BBC in the form of jointly controlled business activities:

The parties participating in the joint venture jointly open accounting books to record and reflect in their separate Financial Statements the following contents:

- Assets contributed to the joint venture and controlled by the business capital contributor;
- Debts to be incurred;
- Revenue shared from the sale of goods or provision of services of the joint venture;
- Expenses to be incurred.

The parties shall divide the revenue from the sale of goods or provision of services of the joint venture, and divide the common expenses according to the agreements in the Joint Venture Contract.

b. For BBC sharing after-tax profits

According to the terms of the agreement at BBC, the parties will share profits and losses based on BBC's business results. The company will record in the Business Performance Report the revenue, expenses and profits corresponding to the BBC's agreed share. The ratio of sharing business cooperation results is stipulated in each specific contract after the parties have fulfilled BBC's obligations to the State Budget.

10. Accounting principles for deferred Corporation Income Tax: None

11. Accounting principles for prepaid expenses

Prepaid expenses are gradually allocated to production and business costs, including: Pre-operating costs; Tools and equipment, costs used for many business cycles.

Prepaid expenses are gradually allocated using the straight-line method and the allocation time is based on the nature and level of each type of expense for reasonable allocation.

- Prepaid expenses are monitored in detail by period.

12. Accounting principle for payables:

Payables are recorded for future amounts payable related to goods and services received.

Classification of payables as trade payables, intercompany payables, and other payables is based on the following principles:

- Trade payables reflect commercial payables arising from transactions of purchasing goods, services, assets and the seller is an independent entity from the Company, including payables when importing through a consignee
- Intercompany payables represent amounts between a superior unit and a subordinate unit that are not separate legal entities.
- Other payables reflect non-trade payables that are not related to transactions of purchasing, selling, providing goods and services.

The Company does not revalue payables that meet the definition of foreign currency-denominated monetary items.

The Company does not record payables lower than payment obligations.

The company does not make provisions for liabilities.

13. Principles for recognizing loans and financial lease payables:

Loans and financial lease payables are monitored for each lending entity, each loan agreement and the repayment term of loans and financial lease payables.

14. Principles for recognizing and capitalizing borrowing costs

Borrowing costs are recorded in production and business expenses in the period when incurred, except for borrowing costs directly related to the investment in construction or production of unfinished assets which are included in the value of that asset (capitalized) when meeting all the conditions specified in Vietnamese Accounting Standard No. 16 "Rorrowing costs"

15. Principles of recognizing payable expenses

Actual expenses that have not yet arisen but are estimated to be recorded in production and business expenses in the period to ensure that when actual expenses arise, they do not cause sudden changes in production and business expenses on the basis of ensuring the principle of matching between revenue and expenses. When such expenses arise, if there is a difference with the amount deducted, the accountant will record additional expenses or reduce the expenses corresponding to the difference

16. Principles and methods of recording provisions for payables

Principle of recognizing payable provisions:

Provisions for payables are recorded when they satisfy the conditions specified in Accounting Standard No. 18 "Provisions, assets and contingent liabilities".

- Methods of recognizing payable provisions:

Provisions for payables are additionally created (or reversed) according to the larger (or smaller) difference between the amount of provisions for payables to be created this year compared to the amount of provisions for payables created in the previous year that have not been used and are recorded in the accounting books.

The Company does not generate any provisions for payables

1/2 2

Unearned revenue includes the amount of money that customers have paid in advance for one or more accounting periods for leasing assets.

Unearned revenue is transferred to Sales and Service Revenue or Financial Activity Revenue according to the amount determined in accordance with each accounting period.

The Company does not generate Unearned Revenue

18. Principles of recognizing owner's equity:

a. Principles of recognizing owner's investment capital, capital surplus, other capital of owner:

- + Owner's investment capital: is recognized according to the actual capital contributed by the owner;
 - Capital surplus: is recognized according to the difference greater (or less) between the actual issuance price and
- + the par value of shares in joint stock companies when issuing shares for the first time, issuing additional shares or reissuing treasury shares;
 - Other owners' equity: is recognized at the remaining value between the fair value of assets that the company
- + receives from other organizations and individuals, after deducting (-) the tax payable (if any) related to these donated assets.

The company only recognizes the investment capital of the owner.

b. Principles for recognizing differences in asset revaluation:

The company does not have any asset revaluation transactions.

c. Principles for recognizing exchange rate differences:

Exchange rate differences reflected on the Balance Sheet are exchange rate differences arising or revaluation at the end of the period of foreign currency items (exchange rate gains or losses) of investment activities in construction and development (pre-operational period, not yet completed investment).

Recognition, evaluation and handling of exchange rate differences in the company in 2016 are implemented in accordance with the provisions of Circular 200/2014/TT-BTC dated December 22, 2014 issued by the Ministry of

d. Principles for recognizing undistributed revenue:

Undistributed profits after tax reflected on the Balance Sheet are the profits (profits or losses) from the business's activities after deducting (-) the current year's CIT expenses and adjustments due to retroactive application of changes in accounting policies and retroactive adjustments of material errors of previous years.

19. Principles and methods for recognizing revenue:

a. Revenue from sales:

Sales revenue is recognized when the conditions for recognizing sales revenue are satisfied as prescribed in Accounting Standard No. 14 "Revenue and other income" such as:

- Most of the risks and benefits associated with ownership of the product or goods have been transferred to the buyer.
- The company no longer holds the right to manage the goods as the owner of the goods or the right to control the goods.
- + Revenue is determined relatively reliably.
- + The company has received or will receive economic benefits from the sales transaction.
- + The costs related to the sales transaction can be determined.

Sales revenue is determined at the fair value of the amounts received or to be received according to the accrual accounting principle. Advance payments from customers are not recognized as revenue in the period. In case of deferred payment sales, the interest on deferred payment will be deferred in the "Unearned Revenue" item and will be recorded in financial income when the interest is due.

b. Revenue from providing services:

Revenue from providing services is recognized when the conditions for recognizing revenue from providing services are satisfied as prescribed in Accounting Standard No. 14 "Revenue and other income", as follows:

- + Revenue is determined with relative certainty;
- + It is possible to obtain economic benefits from the service provision transaction;
- + The portion of work completed on the date of preparing the Balance Sheet can be determined;
- + The costs incurred for the transaction and the costs to complete the service provision transaction can be determined. The portion of service provision work completed is determined according to the method of assessing completed work.

c. Financial income:

Financial revenue includes revenue arising from interest, royalties, dividends, profits shared and other financial revenue items recorded when simultaneously satisfying the following two (2) conditions:

+ It is possible to obtain economic benefits from the transaction;

+ Revenue is determined relatively reliably.

d. Revenue from construction contract:

The Company does not generate revenue from construction contract:

20. Accounting principles for revenue deductions

Revenue deductions include discounts, sales discounts, and sales returns that arise in the same period of consumption of products, goods, and services and are adjusted to reduce revenue in the period in which they arise.

In the case of products, goods, and services that have been consumed in the previous period and sales discounts and returns arise in this period, they are recorded as reductions according to the following principles:

- + If the discounts and returns arise before the issuance of the Financial Statements for this period, the revenue is recorded as reductions in the Financial Statements for this period.
- + If the discounts and returns arise following the issuance of the Financial Statements for this period, the revenue is recorded as reductions in the Financial Statements for this period.

21. Principles of accounting for cost of goods sold

Cost of products, goods, services, investment real estate; production cost of construction products (for construction enterprises) sold during the period. In addition, cost of goods sold also reflects costs related to investment real estate business activities such as: Depreciation costs; repair costs; costs of leasing investment real estate under the operating lease method (in case of small occurrence); costs of transferring and liquidating investment real estate, etc.

For the value of inventory that is lost or damaged, accountants must immediately calculate it into cost of goods sold (after deducting compensation, if any).

For direct material costs that exceed normal levels, labor costs, and fixed general production costs that are not allocated to the value of products in stock, accountants must immediately calculate it into cost of goods sold (after deducting compensation, if any) even when the products and goods have not been determined to be consumed.

Import tax, special consumption tax, environmental protection tax have been included in the value of purchased goods. If these taxes are refunded when selling goods, they will be recorded as a reduction in the cost of goods sold.

22. Principles and methods for recognizing Financial expenses

Expenses recorded in financial expenses include:

- + Expenses or losses related to financial investment activities;
- + Lending and borrowing costs;
- + Losses due to changes in exchange rates of transactions arising from foreign currencies;
- + Provisions for devaluation of securities investments.

The above amounts are recorded according to the total amount incurred during the period, without offsetting against fine

23. Principles of accounting for selling costs and business management costs

Selling costs reflect actual costs incurred in the process of selling products, goods, and providing services.

Business management costs reflect the general management costs of the company.

24. Principles and methods for recognizing current corporate income tax expenses and deferred corporate income tax expenses:

Current corporate income tax expenses are determined based on taxable income and corporate income tax rates in the current year.

Deferred corporate income tax expenses are determined based on deductible temporary differences, taxable temporary differences and corporate income tax rates.

Current corporate income tax expenses are not offset against deferred corporate income tax expenses.

25. Related individuals

A related person is an organization or individual that has a direct or indirect relationship with an enterprise in the following cases:

The parent company, the parent company manager and the person with the authority to appoint that manager for a subsidiary in the group of companies;

- A subsidiary of the parent company in the group of companies;

A person or group of people who are able to influence the decision-making and operations of that enterprise through the enterprise management agency;

- An enterprise manager;
- Wife, husband, biological father, adoptive father, biological mother, adoptive mother, biological child, adopted child, biological brother, biological sister, biological sibling, brother-in-law, sister-in-law of the company manager or of the member, shareholder owning the capital contribution or controlling shares;
- Individuals authorized to represent the persons, companies specified in points a, b, c, d and dd, Clause 17, Article 4 of the Law on Enterprises
- Enterprises in which the persons, companies specified in points a, b, c, d, dd, e and h, Clause 17, Article 4 of the Law on Enterprises own enough to control the decision-making of the management agencies in that enterprise;
- Groups of people agreeing to coordinate to take over the capital contribution, shares or interests in the company or to control the decision-making of the company.

In considering each possible related party relationship for the preparation and presentation of the separate financial statements, the Company pays attention to the substance of the relationship rather than the legal form.

26. Other accounting methods and principles

Principles for recognizing trade receivables and other receivables
 Recognition principles:

Customer receivables, prepayments to suppliers, internal receivables and other receivables at the reporting date, if:

- + With a collection or payment period of less than 1 year are classified as current assets.
- + With a collection or payment period of above than 1 year are classified as non-current assets.

Provision for doubtful debts:

Provision for doubtful debts represents the estimated loss of receivables that are unlikely to be paid by customers at the time of preparing the Financial Statements.

b. Principles for recognizing trade payables and other payables

Payables to suppliers, internal payables, other payables, loans at the time of reporting, if:

- + With a collection or payment period of less than 1 year are classified as current debt.
- + With a collection or payment period of more than 1 year are classified as non-current debt.

Deferred income tax (if any) is classified as non-current debt.
